About Me

I am a software developer skilled in Python, JavaScript, React, and Vue.js, with some knowledge of Photoshop, Illustrator, Figma, and Blender. Currently pursuing a Bachelor's degree in Information and Communication Technology at Rangsit University after completing a Diploma at PSB Academy, I combine my development skills with growing design and marketing knowledge. I am passionate about coding, DevOps, and continuous personal growth, while also exploring creative interests such as graphic design, 3D modeling, and digital illustration.
