About Me

I am a software developer skilled in Python, JavaScript, React, and Vue.js, with some knowledge of Photoshop, Illustrator, Figma, and Blender. Currently pursuing a Bachelor's degree in Information and Communication Technology at Rangsit University after completing a Diploma at PSB Academy, I combine my development skills with growing design and marketing knowledge. I am passionate about coding, DevOps, and continuous personal growth, while also exploring creative interests such as graphic design, 3D modeling, and digital illustration.

Projects

Champion – RSU Hospitality ERP Hackathon 2025 (Team Groove)
Role: Front-End Developer & Web Designer

- Designed and built a hotel analytics website aligned with the "Create Visual Data Presentation" theme.
- Developed dynamic dashboards and UI using HTML, CSS, JavaScript, and data visualization tools.
- Collaborated on real-time ERP-based insights for the hospitality sector.
- Organized by RSU ICT Program in partnership with CiMSO Southeast Asia Co., Ltd

Leveraging AI to Build Fit Communities – 2024
Role: Front-End Developer & Web Designer

- Collaborating with team members to design an AI-powered platform promoting healthy lifestyles.
- Wrote technical documentation and community engagement materials as part of coursework.

Graphic Designer – PEC (Practical English Club) 2025-current
Role: Front-End Developer & Web Designer

- Volunteering as a graphic designer to create digital posters, event posters, and promotional materials for club activities.
- Collaborating with team members to design engaging visuals that support communication and outreach efforts.
